Pursuant to Rule 3.73(b) and Rule 1.321, I, Terril G. Lewis, represent that I am an authorized attorney of record for the above-referenced application and therefore authorized to act on behalf of the assignee. The Assignee of record for the above-referenced application is Micron Technology, Inc., as evidenced by the assignment recorded at Reel 013630, Frame 0990, who owns a 100% interest in the above-referenced application.

The Assignee hereby agrees that any part of the statutory term of any patent granted on the above-referenced application that extends beyond the expiration dates of U.S. Patent Nos. 6,887,521, 6,838,293, 6,566,147, and 5,735,960 (the "subject patents"), as measured in accordance with 35 U.S.C. §§ 154-56, 173 and with respect to any terminal disclaimer filed with respect to the subject patents (the "expiration dates of the

subject patents”), is hereby disclaimed, except as provided below. It is agreed that any patent granted on the above-referenced application shall be enforceable only for and during such period that any such granted patent is commonly owned with the subject patents. It is further agreed that this terminal disclaimer applies to any patent granted on the above-referenced application and is binding upon any grantee and/or its successors or assigns.

However, the Assignee does not disclaim any part of the statutory term of any patent granted on the above-referenced application that extends to the expiration dates of the subject patents, in the event that, before the expiration dates of the subject patents, any subject patent: expires for failure to pay a maintenance fee; is held unenforceable; is found invalid by a court of competent jurisdiction; is statutorily disclaimed in whole or terminally disclaimed under 37 C.F.R. § 1.321; has all claims canceled by reexamination certificate; or is reissued in any manner.
